August 31, 2021, (Presenter) Dunker, K., McQuade, A. F., Stolzle, J., Dunker, K., **Lentz, A.**, "Impacting Food Insecurity: Extension's 'Grow & Give' Modern Victory Garden work", Epsilon Sigma Phi National Extension Webinar, ESP National, Seminar, Accepted, Now is the time for Extension professionals to demonstrate our ability to be nimbly responsive to current issues and meet local needs through statewide collaboration. Colorado State University Extension's Grow & Give project underscores the unique opportunity to engage communities in a modern victory garden project through virtual resources, timely support and direct connection to those in need locally. Through dynamic, interdisciplinary teamwork, CSU Extension created a comprehensive statewide initiative focused on helping people grow food and give locally to address food insecurity. The now trademarked program recruited almost 600 registered gardens across more than half of Colorado's counties in its pilot year (2020) with donations totaling over 48,000 pounds. Several new resources were created for participants, including over 60 new video tutorials designed to help people grow and donate food. Watch this video to get a sense of the project and its impact: <https://vimeo.com/445647558/c0a658b1ac>.
